SURGERY MADE SIMPLE

YOUR GATEWAY TO HIGHER
PERFORMING PROVIDERS IS YOUR
KEY TO BETTER SURGERY RESULTS

surgerate

SURGERY CHOICE AS SIMPLE AS 1-2-3

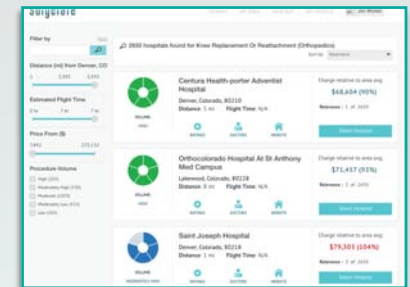

BEFORE YOU DECIDE ON A FACILITY AND SURGEON PLEASE LOGON TO [USER.SURGERATE.COM](https://user.surgerate.com) TO COMPARE AND SELECT THE ONE FOR YOU. OR JUST CALL OUR CONCIERGE AT [\(855\) 217-2777](tel:8552172777).

Welcome to Surgerate, your new healthcare enhancement program. Utilizing an advanced provider search & rank engine, Surgerate's concierge team can help identify more efficient providers in your area, handholding you through the confusing surgery process.

Unlike other services, surgery prices are not necessarily the best Indicator of quality. Healthcare facilities that perform above-average volume of your surgery tend to be better equipped and attract experienced surgeons, while charging more reasonable prices due to their proficiency and efficiency.

1. SELECT A HIGH-PERFORMING FACILITY:

Call us at **(855) 217-2777, Opt #1**, to take advantage of our friendly concierge team, or Logon to user.surgerate.com to find and select surgery facilities by their performance, distance, and price. If you ever booked a hotel online you will find the experience quite similar. Upon selection of a facility you like we will get involved to assist you with your surgeon decision.

2. CHOOSE AN EXPERIENCED SURGEON:

We will call and help you with this surgeon decision. If your surgery has already been assigned by a surgeon to a facility displayed on Surgerate, you are good to go. If your surgeon happens not to be affiliated with any facility displayed on Surgerate, you will have the options to keep or replace either your surgeon or the facility. We will assist you either way.

3. GET YOUR SURGERY DONE PROPERLY:

Once a highly efficient facility and an experienced reputable surgeon have been aligned you are ready to book your surgery. We will be with you through your journey towards recovery. All we have left is to wish you a fast recovery and hope you never need our services again:)
